

Austin SwapNet 01/06/2019 de N5MNW & AARC

AARC- Keepin' Austin Wireless since 1919!

Website: www.AustinHams.org

New Year Newtonians,

DE Joe K5EJL:

Paul M. Hargis, W5KA (SK), Birthday Celebration by Joe Fisher, K5EJL ARRL Technical Specialist and CLM (and self-appointed AARC Historian)

It's now become an "every year" thing: the Paul Hargis Birthday Bash. January 12, 1907, was the birth date of Paul Hargis, born right here in Austin. Like last year, let's do it again at Waterloo Ice House, Burnet Road. And remember, 2019 is the year that we consider to be AARC's centennial year.

Last year (See January 2018 AARC-OVER) I wrote a thumbnail biography of Paul Hargis. This year though, I thought it might be interesting to look up the 1931 address for W5KA as referenced in last year's article: 1012 W. 30th Street.

Well, everything changes, eventually. But if the address was printed correctly, it no longer exists! A search of Google Maps shows that it should have been just west of Lamar Blvd at W. 30th St. However, that area is now the Shoal Creek trail and creek itself. West of that is Belmont Pkwy. which may have originally been W. 30th St. Doesn't matter though, as Belmont begins, apparently, in the 1100 block and W. 30th St begins again at the 1400 block further west.

I'm sure that somewhere in the Austin History Center there's info to explain what happened to 1012 W. 30th Street, if it ever existed, but that's a project for another time. Perhaps further research may turn up more info on the early locations of W5KA. We'd sure like to know about it/them.

Remember that it was 1933 before the Federal Radio Commission permitted "portable" operation away from an Amateur Station's Licensed location. And thus ARRL Field Day was made possible that year. And it was 1948 before (general) mobile operation was permitted by FCC.

I guess that's about it. See you at Waterloo Ice House, 8600 Burnet Rd, Saturday, January 12, for the annual get together, 6:30 p.m. 'til whenever. As usual your club Historian will pick up the first round, so don't be too late. Bring show-and-tell (of any kind) if you have some.

73 K5EJL

DE Jeff N5MNW:

What happens with a giant solar outburst on the scale of the Great Solar Storm of 1859 hits the Earth. Solar scientists got a taste of such a blast in 2012 when the Sun erupted in a giant coronal mass ejection. In one of the largest solar computer simulations ever performed, scientists tracked the impact of a massive wave of solar plasma as it slammed into Earth.

Here's a link to one of my favorite general-interest sites- imgur, detailing the 1859 Carrington event, the recent one in 2012 that -could- have been comparable if it had been Earth-facing and the Parker Solar Probe.

<http://imgur.com/gallery/v7sJxtm>

ARLX001 Third Wednesday Monthly Communications Exercises Set

FEMA Region 10 will conduct monthly communications exercises (COMMEX) on the third Wednesday of each month, starting on January 16, 1730 - 1900 UTC. Amateur Radio operators are invited to take part. The intent of these exercises is to test and exercise interoperable communication (federal/state/local/tribal/Amateur Radio) during a major disaster in which the communication infrastructure is significantly damaged or destroyed.

FEMA Region 10 will use the call sign WGY910. Other stations associated with agencies and organizations that provide response support in accordance with the National Response Framework are encouraged to participate.

The COMMEX will use these "dial" or "window" frequencies on 60 meters - including 5,330.5 kHz, 5,346.5 kHz, 5,357.0 kHz, 5,371.5 kHz, and 5,403.5 kHz - as part of the exercise. The area of operation is the continental US.

The Austin Amateur Radio Club offers annual scholarships to licensees living in Travis, Williamson, Bastrop, Hays, Blanco, Caldwell and Burnet counties.
Please see <http://austinhams.org/scholarships> for more information.

Both the AARC and WCARC are accepting membership dues. Please refer to www.AustinHams.org and www.WCARC.com websites for details.

A Yahoo discussion group, dedicated to Austin Ham Radio can be found here:
<http://groups.yahoo.com/group/austinhams/>

The SwapNet Newsletter is published weekly on a private, secure listserv.
You may automatically subscribe by sending an email to:
swapnet-subscribe (at) austinhams.org

The Austin Amateur Radio Club is committed to email address security, battling SPAM and ID theft.
We will do everything we can to assure mass-email addresses are suppressed (BCC'd) and that published email addresses will be "munged" upon request. mungification: at=@ dot=. Get it?

Unfortunately, the SwapNet Newsletter contains numerous components that are "graded" as SPAM, causing automatic filters to engage, deleting without recipient's (your) knowledge or permission. Adding the source email address to your contact list may help but consult your ISP for "whitelisting" details.

List owners, sysops and frequent info-emailers:

Email is a powerful tool- sent, received ...and intercepted... /rant=ON/

e-dress harvesters glean your info, not only from used copier hard-drive data vultures, but from clueless people you probably know and Love!

SPAMbot-recognizable patterns (jokes, gossip, "poli-ticks", whatever) and large "TO:" headers are -prime-e-targets as they spend cyberspace time on who-knows-how-many hard drives & caches.

Please try to introduce this concept to the "mass unwashed"...

Avoid alienating these otherwise well-meaning users. They will often respond to any criticism by simply deleting you from their "Joke/Buddy list". While this might have the desired end effect, remember: "Keep your friends close and your enemies closer".

Forwarding ANYTHING to "Everyone You Know!!!", propagating ignorance/hate mongering emails, not stripping "TO:" headers, indiscriminate clicking of unverified/"unsubscribe me" links, not fact checking and responding to unsolicited emails (sheesh, how many misplaced Royal Fortunes can you launder in a week?) all indicate cluelessness and contribute to the problem.

Please try to explain this to the "mass unwashed".

After a few hand-held trips to sites like www.TruthOrFiction.com, www.HoaxSlayer.com, (heck even Snopes), e-education, e-encouragement and polite (earnest but stern) warnings, Take Action! Introduce repeat offenders to www.spamcop.net/, "BCC-ing", assist them to "update" their address book, in extreme circumstances, remove them from sensitive distributions and, if continued, invoke root privs and (insert unprintable e-penance here). /rant=OFF/

To support the SwapNet Newsletter, club repeaters, loaner hardware, Ham classes and other things AARC is up to, please join us and get involved!!

Contact Ruben WB5WTF email- President (at) austinhams.org or Mark W5MPJ Treasurer (at) austinhams.org for more details.

AARC dues can be paid or renewed online. It's now easier than ever to renew and/or join the AARC!

Jun 23-24 ARRL Field Day

The Have & Want listing below is transcribed from a 2m voice "SwapNet" held every Sunday at 9PM on the 146.940 repeater in Austin, TX- an AARC/ARO tradition since 1974!

Newest postings appear near each list end, float up and expire after six weeks.

Actual on-air Net participation is preferred but SwapNet Newsletter updates can be emailed to:

n5mnw@arrl.net. Along with a short description of the item(s), be sure to include your name, callsign, phone number/email and an asking price.

We'd like for the Austin SwapNet to be primarily an Amateur Radio Swap List.

Items for sale/trade should be actual Amateur Radio equipment or -directly- related. While most Radio, Electronic, Computer & Test Equipment is acceptable, listing an auto, RV or home because it has, or could be traded for, Ham gear is a tad questionable. NCS reserves the right to skip any on-air listing if they feel it would compromise their license status...

SwapNet does not claim to be and indeed, is not in competition with any forum- internet or otherwise; Ebay, QRZ, Eham, Craigslist, etc. This venue encourages Austin locals to comfortably trade into and out of ham gear, period! We do think the personal touch of an approachable, experienced team of AARC Elmers and NCS's makes for a value-added experience.

It should go w/o saying, but AARC assumes -NO- liability for 3rd party items.

Be sure to ask all pertinent questions before entering into -any- purchase or exchange.

Please feel free to copy or forward as you wish, giving proper acks to AARC.
