# Introduction

## **NOTE: This is a Work-In-Progress and will take time to complete!**

I'm doing a LOT of catch-up work and reviewing *all* the available past issues of the AARCOVER newsletter. As part of my efforts, I'm creating this index to help me know what has been done in the past. A by-product is that you get a complete index of what we have online! Lucky you. 😊

### Can You Help?

If you have any desire (and time) to help, let me know. Then pick a year and just create an abbreviated list of what's in each issue for that year. I prefer a plain text file (i.e. Notepad) or Microsoft Word compatible (including the open source Libre Office). I'll add your contribution to this master index and will definitely credit you with a by-line.

### Availability

Newsletter issues are available beginning with December 1987 to present. However, there are a number of years that are entirely missing, as well as a several issues from other years. All months for 2004 to present are all available.
